

CONSTRUCTION LAYOUT & STAKING

Precise stakeout of buildings, gridlines, foundations, utilities and roadworks — direct from your IFC drawings to marks your crews can build from.

WHAT PCI PERFORMS

- Building corner and foundation layout
- Gridline, column and anchor-bolt layout
- Formwork line and grade checks
- Underground utility, manhole and catch-basin stakeout
- Curb, sidewalk, road and parking layout
- Slope staking and earthworks limits
- Pile and pipeline stakeout
- Re-staking after design changes

DELIVERABLES

- Stakes, hubs, offsets and paint marks with clear referencing
- Cut sheets and layout reports
- Grade and alignment confirmations
- Layout QA documentation for your records
