

EARTHWORKS & VOLUME SURVEYS

Stockpile, cut-and-fill and progress volumes measured properly — defensible numbers for payment, planning and inventory.

WHAT PCI PERFORMS

- Stockpile volume surveys
- Cut-and-fill and borrow-pit calculations
- Monthly progress and payment quantity surveys
- Topsoil strip and subgrade verification
- Design surface comparisons
- Mine and aggregate inventory surveys

DELIVERABLES

- Volume reports with methodology and surfaces documented
- Cut/fill maps and isopach plots
- Surfaces and models (Civil 3D compatible)
- Orthophotos of the site at survey date
