

GROUND DISTURBANCE SUPPORT

Complete dig-safe packages: locates, documentation and on-site support that let excavation proceed with confidence.

WHAT PCI PERFORMS

- Pre-excavation utility investigations
- Locate packages for ground disturbance permits
- GPR clearance of dig areas
- Marking maintenance and re-locates during long programs
- Locate documentation and sketches for permit files
- On-call support during excavation

DELIVERABLES

- Documented locate reports for permit files
- Marked dig areas with sketches and photos
- Repeat visit records
- Utility maps of investigated areas

HONEST LIMITATIONS

Locating reduces risk but does not eliminate it. Ground disturbance procedures — hand exposure, daylighting, and safe digging practice within the tolerance zone — remain essential.
